April 29<sup>th</sup> 2015

Dear Michal,

My purpose in writing to you today is to put on record our appreciation for the service we have received from ARO Logistics, and for your support in setting up a local warehouse and distribution facility from which we have serviced our customers in Poland.

In terms of physical warehousing , IT systems to support stock movements and control, and the preparation and dispatch of mixed item orders, we have received the highest possible levels of service and excellent communications at every stage of the development of a close co-operation between our companies.

I have no hesitation in recommending ARO to any other company looking for a focused and professional team to support a Polish distribution operation.

My thanks go to all members of the ARO team for their individual and collective efforts.

With kind regards,

*Barry Cox*
